Govt. College of Pharmacy, Aurangabad
Osmanpura, Aurangabad – 431005
Maharashtra

Eligibility for Seminar:

Faculties, researchers, post graduate (M.Pharm., /M.Tech./ M.Sc.)students, academicians, research scientists from industries; in the field of Pharmacy and various disciplines like **Chemistry, Biochemistry, Microbiology and Biotechnology.**

About the College:

Government College of Pharmacy, Aurangabad was established in the year 1996 by the Government of Maharashtra. The thrust for the establishment of the college was given by Padmavibhushan Honorable Late Shri Govindbhajji Shroff, the great freedom fighter. The Institution started with the initial student intake capacity of 30 which was subsequently raised to 60 in 2005. The College is approved by the All India Council for Technical Education (AICTE), New Delhi, Pharmacy Council of India (PCI), New Delhi and affiliated to Dr. Babasaheb Ambedkar Marathwada University, Aurangabad. The college has Ph.D lab., approved by Dr. Babasaheb Ambedkar Marathwada University since 2003. The AICTE subsequently gave permission to start Master courses in Pharmaceutics and Pharmaceutical Chemistry in 2006 and 2007; respectively. In 2010, the Institution shifted to its own huge building of 75,000 sq. ft. area. The Government of Maharashtra, realizing the need of education in clinical Pharmacy area so as to meet the global challenges, decided to start the Pharm. D course in 2011 with the student intake capacity of 30. It is also having a strong back-up of analytical instrument facilities of industrial interest.

The college has an excellent faculty led by the Principal Dr. S. S. Khadabadi who has obtained patents and published several books and is also the recipient of Ideal Teacher Award. All the faculty members of this Institute have a good contribution in Pharmaceutical research and have several scientific publications in Journals of National and International repute to their credit. Most of the faculty members are Doctorate degree holders and have published several research papers in national and international journals.

About the Seminar:

A proactive approach to motivate research for the benefit of the society in large and in synergy with the vision of National Knowledge Commission, a dream of Hon'ble Prime Minister Dr. Manmohan Singh, is the thrust for organizing the seminar. Indian Pharmaceutical industry is fast growing in comparison to other fields. India is a major exporter of drug. It is

required that the drug / formulations must get complied with the regulatory requirement of the respective countries. Global requirements vary widely. There is a tremendous scope of employment in this area for skilled persons. Hence an attempt is made to make aware to the participants about the recent trends in global regulatory affairs by this seminar. To explore the vast arena of Global Drug Regulatory Affair, expertise from Industry will channelize the effective and productive path of drug regulatory affairs.

Objectives of the Seminar:

1. To introduce about the global requirements of drugs and pharmaceutical regulatory requirements.
2. To create fruitful interaction between academicians and industry professionals, this will clear the doubts of the participant.
3. To build industry-institute partnership
4. To develop student, researchers and academicians as per the demands of industry.
